PROJECTS

Telstra official website | Team size: 21

Technical Architect and Software Developer at Telstra.com.au, I led the development of a dynamic web platform using cutting-edge technologies, including Next.js, React.js, Redux, and HTML/CSS. Focused on innovation, I implemented responsive and visually stunning features, enhancing user engagement and delivering a seamless digital experience. My responsibilities included architecting scalable solutions, optimizing performance, and ensuring code maintainability, contributing to the overall success of Telstra's flagship website.

Tech Stack: Next.js, Reactjs, Redux, AEM, HTML/CSS, JavaScript, TypeScript, Webpack, Responsive web design, Git, A11Y (WCAG2)

TConnect | Team size: 25

TConn is the web and app-based platform which connects businesses with other customer's businesses. It provides a central location for different companies to access various business services such as

Incident management, your services, Service requests, planned maintenance, online ordering, order tracker and request quotes.

Portal includes increased efficiency, reduced transaction costs, enhanced supply chain visibility, streamlined procurement processes, improved collaboration between trading partners, and access to a wider range of suppliers and customers.

Tech Stack: Reactjs, Redux, Thunk, HTML/CSS, LESS, TypeScript, Nodejs, Nest.js, Micro-Front End, Micro-service, AWS, SonarQube, Jest, Enzyme, AEM Edge Delivery Service

Bridgestone Tire | Team size: 20

Bridgestonetire.com is the official website of Bridgestone. Website developed using Adobe experience manager and UI technologies.

Store locator providing listing of stores available near by the customer. Overall, the Bridgestone Tire website is designed to provide a user-friendly experience for customers looking for information about tires and related services, as well as help them find the right products and local retail locations.

Tech Stack: Angular, TypeScript, HTML/CSS, SASS/SCSS, Adobe Experience Manager, Drupal CMS, PHP, Git, Responsive web design

FUNCTIONAL SKILLS

- Estimations – Presales activity
- Application function design
- Design and Flow creation
- Pixel perfect development
- Client communication
- Process centric

AWARDS

- Best Employee of quarter
- Trainer of the Month
- Inspiring performance
- Habit flagger Building trust
- Habit flagger Responsive
- Victory league
